How did they get to NAWCAD/PAX River.... From you?

Joe

Joe,

(b) (6) was the POC who sent us Gimbal and Go Fast originally, he was down at FFC N2 at the time - (b) (6) These videos are both from VFA-11. If we have those emails they would be on JWICS and classified.

The 2004 video was from VFA-41, I was provided it via CDROM in 2009 directly from the WSO that captured the footage. The file was loaded to SIPRNet via CDROM and the CD was destroyed. That was all coordinated via the telephone not email.

V/r, (b) (6)
